

100XR FIBERGLASS TRUCK CAP

Expertly Engineered for A Precise Fit

Shown with NEW
2024 Tacoma style lines.

STANDARD FEATURES & BENEFITS

Framed front picture window

Allows driving visibility from the truck cab through the bed

Dark tint, side sliding windows with screens

Add ventilation and privacy for contents or pets

One-piece, fiberglass construction

Designed with enhanced structural integrity and durability with attachment points that follow the truck's bedrail profile

Skirted sides

Cover the factory bedrail caps for a smooth transition of color from the cap to the truck body

Frameless hidden hinge curved glass rear door

Fits the contours of each truck and enhances styling; channels water away from the truck bed

LEER Flip-lock handle

Secure lock that's protected from the elements

Automotive-style rotary latch system

Spring loaded system for smooth operation and security

12V Dome light

Enhances interior visibility

12V Fuse box

Easy electrical connection for installation and removal of truck cap

Installation components -

Bulb seal

Bulb seal minimizes water and dust intrusion

J-Bolt clamp system

Install without drilling into the truck bed with the J-Bolt clamp system

Axalta automotive paint

Formulated to match OEM paint colors

Customizable

For both recreational and light-duty commercial applications for any lifestyle or work style

KEY DIFFERENTIATORS

Frameless curved glass rear door adds visibility and style

LEER flip-lock handle for security and easy operation

Automotive-style rotary latch system is spring loaded for smooth operation and security

USAGE CASES

- Golfers
- Sports travel league parents
